

Kids Sending Smiles
5k for Breast Cancer Research
2013

On October 19, 2013 Kids Sending Smiles held 5k walk/run for breast cancer research. Sixty-two people from ages 4 to 70 participated in the event at Burke Lake Park. Race participants included breast cancer survivors, their children and extended families and other individuals who share their desire for better breast cancer treatments. Racers came from Virginia, Washington, DC, Florida, Kentucky and Texas. In addition, children made cards and contributed to banners that were donated to breast cancer patients.

Many KSS members have had a parent, relative or family friend afflicted by breast cancer. For this reason, the kids decided to hold a family friendly 5k walk/run and donate proceeds from the race to The Breast Cancer Research Foundation®. We raised approximately \$1500 thanks to the hard work of many young people and their parents.
