

The Social Development Center, Olongapo City, Philippines

Working through the community and a second grade classroom, KSS undertook a project to help a transitional home for girls ages 5-17 in Olongapo City in the Philippines. Many of these girls were found on the streets or rescued from abusive situations. The Social Development Center receives some subsistence funding from the local government, but the girls needed many basic items. KSS raised \$560.05 for the center which was used to purchase dressers, new pots, pans and dishes, a mirror and a DVD player and karaoke machine. In addition KSS collected 18 boxes of new items for the girls at the center including hairbrushes, tooth brushes, under wear, feminine hygiene products, school supplies, jump ropes, bad mitten sets, pillows, and bedding.
